OBJECTIVE

Civil engineering student at Texas A&M University seeking a Summer 2026 internship to contribute to projects in sustainable infrastructure, water systems, and community-focused design.

RELEVANT COURSES

AutoCAD/Civil3D	Mechanics Of Materials
Statics	Fluid Dynamics
Surveying	Civil Engineering Systems
Numerical Methods	

EDUCATION

Texas A&M University, College Station, Texas
Bachelor of Science in Civil Engineering
Cumulative GPR: 3.8

Expected Graduation: May 2028

WORK EXPERIENCE

- Amazon**, Traverse City, Michigan– *Logistics Associate* Summer 2025
- Handled package sorting, dock operations, and inventory, following strict safety procedures and adapting quickly to changing workflows.
- Chipotle**, Round Rock, Texas – *Front of House Trainer* June 2023 – August 2024
- Oversaw front-of-house operations, trained new employees, and supported inventory and food safety compliance.

ACTIVITIES

- Structural Engineers Association of Texas**– *Member* January 2026 – Present
- Participate in seminars, networking events, and the annual symposium to learn from professionals and faculty about structural engineering design and careers.
- ASCE Texas A&M Student Chapter** – *Member* January 2026 – Present
- Attend bi-monthly meetings and events where firms present projects, offer career guidance, and share insights into civil engineering practices.

SKILLS

AutoCAD (Intermediate)	Autodesk Inventor (Intermediate)
Python (Intermediate)	Microsoft Excel (Advanced)

Project Management (Intermediate)

Quick Learning & Adaptability (Advanced)
